Work Experience

Associate Software Engineer · HighRadius

July 2022 - Present

- Collaborated with cross-functional teams to design and develop data visualization web application.
- Implemented responsive and intuitive user interfaces with a focus on user experience and performance optimization.
- Utilized RESTful API development and integration to connect the frontend with various backend services.
- Actively participated in code reviews, debugging, and performance improvements to maintain code quality and stability.
- Ensuring the correctness of any JavaScript codebase by writing test cases in JestJs
- Developed a Chat-based Data Visualization application using OpenAI, enabling users to effortlessly compute and visualize data through natural language input, eliminating the need for complex queries.

Intern · HighRadius

June 2021 - June 2022

- Gained hands-on experience in web development, working on both frontend and backend technologies.
- Assisted in designing and developing user interfaces using React.js, contributing to the enhancement of the company's Autonomous Collection Product, utilizing the technologies like: HTML, CSS, JavaScript, Typescript, ReactJs, Highcharts, and Material-Ul.
- Participated in troubleshooting and debugging activities, resolving issues and improving code quality.
- Acquired knowledge of version control systems, best practices, and agile development methodologies.

Intern · HighRadius

January 2021 - March 2021

- Acquired foundational skills in web development using React. Designed, developed, and deployed an AI-enabled B2B cloud application in ReactJs for the financial sector as part of a team project.
- Demonstrated strong problem-solving and adaptability skills in a fast-paced work environment

Education

2018 - 2022

Kalinga Institute of Industrial Technology, Bhubaneswar

B.Tech (Information Technology) | CGPA: 9.62

Skills

Frontend

- HTML
- CSS
- JavaScript
- Typescript
- ReactJs
- Material UI
- Ant Design
- Echarts

Backend & Database

- NodelJs
- ExpressJs
- Flask
- RESTful API Development
- MongoDB
- MySQL
- DuckDb

Other

- GitHub
- Webpack
- Redux
- Docker
- Jest

Projects

- **Chat2Chart** - WebApp to plot chart on data using text prompt powered by openAI.
- **Ed. Address** - WebApp to post or find tuitions. (MERN Stack Project).
- **Personal Portfolio** - Created a personal online portfolio in ReactJs.
- **Ice Breaker Game** - Android platform game, inspired from retro brick breaker game. Developed using C#.
- **TrackCount** - Android app to track covid cases around the world. Developed using Flutter.

Accomplishment

- Awarded with Intern of the Quarter 3, 2021.
- Awarded with Intern of the Quarter 2, 2022.
- Awarded with Employee of the Quarter 2, 2023.
- Led a dynamic team of frontend developers on a high-impact project, overseeing the entire frontend development process from concept to delivery.
